IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with strikethrough.

Please REPLACE the paragraph [0041] with the following paragraph:

[0041] While not required, it is understood that the method of FIGs. 4 and 5 can be implemented as software encoded on a computer readable recording medium, readable by a general or special purpose computer. An aspect of the invention includes a computer readable medium having a program enabling a computer to change priorities of task-handlers, comprising: receiving a request from a user to change priorities of the task-handlers; and changing priorities of the task handlers, based on the received information. Moreover, it is understood that the hybrid device can additionally handle reading/reproducing with respect to other media, such as Blu-ray discs, advanced optical discs, E-DVD, and magneto-optical media.
